

IT'S AGAINST THE LAW TO RUN A RED LIGHT.

It's against common sense to run a high mileage engine. A catastrophic engine failure in this economy could mean the loss of your business. Why risk it when you can plan ahead and take advantage of ATC's Super Overhaul Special to extend the life of your truck. The special includes a genuine Detroit Diesel lower end kit, a Reliabil[®] cylinder head, all new cylinder head bolts, 6 cylinder kits, installation gaskets, and installation by experienced ATC service technicians. In addition, we'll check the condition of the turbo, water pump, fan belts, and inspect, steam clean, and paint your engine while we're at it.

Make an appointment for the ATC Super Overhaul Special today!

THE ATC SUPER OVERHAUL SPECIAL
\$7,699*
